### The Right to Kill.

Considerable excitement has been aroused in Paris by the question raised by Dr. Boissonod of Brive and stakes up by his Paris colleagues whether a doctor has a right under certain circumstances to take a man's life.

Dr. Boissonod, the first medical man who arrived on the scene of the railway accident in Brive tunnel. The stoker of the engine, a man named Lefort, was caught under the wreck and slowly burned to death.

"When I reached him," writes Dr. Boissonod, "the man was screaming with agony and begged me to kill him. There was no possible hope of saving his life. He was slowly being burned to death, and his body was horribly crushed."

"I considered that my conscience permitted me to put an end to his agony and asked a gendarme for his revolver. He said that he had none, and the stoker was slowly burned to death instead of being put out of his pain there and then."—London Express.

### Niagara Falls.

It has been established that the recession of Niagara falls for the last 200 years has been 42 feet a year and that in 3,500 years it has receded about four miles. This places the age of the falls at approximately 50,000 years.

### Led by a Bear.

It was W. P. James who wrote that one would rather have Mrs. Boswell's letter to Bozzy about Johnson than Johnson's letters to Mrs. Boswell about Bozzy, for it was Mrs. Boswell who made the delightful observation that she had seen many a bear led by a man, but had never before seen a man led by a bear.

### IN BOSTON MARKETS.

Eggs Are Lower and Are Weak in The City Market.

Boston, March 3.—Eggs are lower and weak in the local market. The receipts yesterday showed a considerable increase over those of the previous few days, and not a few were carried over from Saturday's arrivals, the demand was active, but not sufficient to clean up the supplies as well as they have been at closing time lately. Big declines from Saturday's prices were noted in all outside markets and the advices from nearly all producing sections were that collections were large and steadily increasing. The butter market continues very quiet, and as there is a good supply of all grades the feeling is rather easy though no change has yet been made in prices. Cheese is firm and unchanged.

Quotations follow: Butter—Fancy northern creamery, tubs, 31@32c; boxes and prints 24c; western ash tubs 22@30c; fancy storage creamery 30@31c; dairy 27@28c. ## RANDOLPH

Voters Refused to Exempt White Cross Milk Company.

A large number of the legal voters of the town assembled in the Du Bois & Gay hall for the annual March meeting on Tuesday, which passed quietly till the question of exempting the White Cross Milk company came up, which aroused a spirited discussion. Those in favor of the action argued that before the establishment of the business and the building of the plant the board of trade gave Mr. Miller, the superintendent, assurance that they would exempt from taxation for a term of years. Whereupon, the opposing element contended that the company had not fulfilled its contracts with patrons or adhered to its agreement in business, hence was not entitled to favors from the town. Upon calling for the vote the town refused to grant the petition by 15 votes, this being the second refusal, a former trial having been made. Randolph also said "No" to license. The officers were elected as follows: selectmen, Herbert Allen, O. J. Marcott and Elias Hall; overseer of the poor and collector, A. H. Beedle; treasurer, A. M. Hubbard; road commissioner, W. J. Bryant. The entire board of auditors
